SpaSoft™
SPRINGER-MILLER
SYSTEMS

SPRINGER-MILLER SYSTEMS
SPA*SOFT*® AND ORACLE HOSPITALITY FOR CRUISE INTERFACE

Functionality

SpaSoft's Oracle Hospitality for Cruise interface provides seamless integration allowing spa activity and retail charges to be posted from Spa*Soft* directly to cruise guest accounts in Oracle Hospitality for Cruise.

The multiple look-up option in Spa*Soft* allows you to locate and post to the cruise guest account in one simple step. Look up and post to the cruise guest account using any of these options:

- Guest Name
- Account ID
- Cabin Number

The interface uses a TCP/IP connection to communicate messages between the systems.

Benefits

Spa*Soft*'s Oracle Hospitality for Cruise integration eliminates discrepancies in data between systems that can lead to inaccurate information, poor customer response times and missed opportunities.

- Post spa/activity/retail charges to cruise guest Oracle Hospitality for Cruise accounts, quickly and easily from Spa*Soft*'s Point of Sale
- Maintain all charges on a single guest account versus multiple accounts in multiple systems
- Allows cruise guests the convenience of posting to their account instead of having to use alternate methods of payment

Communicated Information

Spa*Soft* and Oracle Hospitality for Cruise will exchange the following information:

INFORMATION SENT	SYSTEM DIRECTION	TIMING
Point of Sale Transaction Details	Spa*Soft* to Fidelio Cruise SPMS	Real-time
