The Only Point of Sale Solution You'll Need

About Springer-Miller Systems

WHO WE ARE

Springer-Miller Systems provides premier software solutions for the finest hotels, resorts and spas worldwide. Springer-Miller Systems offers the ^{SMS}|Host Hospitality Management System, a truly guest-centric and fully-integrated property management system, and SpaSoft, a dynamic activities management and scheduling software solution for luxury spas. Teres POS elevates the guest experience by delivering a premium, flexible, guest-centric point-of-sale solution for food and beverage and retail operations at luxury hotels, resorts or casinos.

WHO WE SERVE

We understand the hospitality industry better than anyone which gives us the ability to meet the demands of multiple different markets. Whether you are destination resort, mountain & ski resort, golf resort, condo-timeshare hotel, beach resort, destination spa resort, city center hotel or a hotel & resort spa; our solutions can take your property to the next level. We are committed to empowering our customers to provide an excellent guest experience through seamless solutions.

SPRINGER-MILLER
SYSTEMS

A truly complete point of sale solution designed to enhance both food & beverage and retail operation

Complete Integration

Fully integrated with our ^{SMS}Host property management solution - allowing enhanced posting, diverse package options and seamless viewing capabilities between PMS and POS systems.

Highly Customizable

With unlimited room layouts and table configurations, you can leverage Teres POS to suit the needs of your property.

Fully Scalable Solution

Teres POS is easily capable of growing as the needs of your business change, whether you need to add more workstations or additional inventory items - Teres POS grows as you grow.

Easy to Use & Deploy

The logic behind our point-of-sale solution guides staff through the software, and with easy navigation of menus and tabs, mistakes will be greatly reduced.

Safer Payments

Regardless if your guests are inserting, tapping, or swiping, their information needs to be safe and secure at all times. We take pride in our extensive high-level security measures.

Improve Guest Satisfaction

Ease for guest & service with functions such as multiple split types, coursing, seat numbers assigning guest names, and on-screen signature capture. Our seamless dining process will create a memorable experience for your guests.
