

SMS|HOST® AND LIGHTSPEED INTERFACE

Interface Functionality & Benefits

SMS|Host's 'Level 3' POS interface utilizes our web servicing technology, SMS|Diplomat to provide seamless integration with the Lightspeed Point-of-Sale application.

The interface allows both systems to have improved accuracy of information and overall efficiency through:

- Pre-posting inquiries that provide the Lightspeed user with detailed SMS|Host guest and reservation data
- Posting of detailed charges from Lightspeed to the SMS|Host system
- Real-time (zoom) check-level data from Lightspeed to the SMS|Host user
- Daily posting of (non-guest room) summary data from Lightspeed to the SMS|Host system. This provides accurate reporting of all POS revenue center totals from within the SMS|Host system.

Lightspeed POS

Lightspeed is a point-of-sale and payments platform powering the world's best retail and hospitality businesses. The integration supports Retail (R-Series and X-Series) and Restaurants (L-Series) to simplify complex operations, scale and grow your business, and provide exceptional customer experiences.

Software and Hardware Requirements

The product is compatible with, and requires, the following:

- Current release of the SMS Product Suite
- Diplomat Type II server (see Exhibit A - Hardware Requirements document)

Please contact a Lightspeed representative to learn more about their software and hardware requirements.

Communicated Information

Your SMS|Host system and Lightspeed POS interface supports but is not limited to:

INTERFACE FUNCTIONALITY

- Pre-posting inquiry
- Posting of detailed charges
- Check-Zoom
- Business day summary totals

Products & Services

SMS|Host's interface with Lightspeed supports the following products & services:

- **R-Series Retail POS:** Lightspeed's one-stop commerce platform powers high-performing businesses, giving them the tools they need to thrive. More than a point of sale, Lightspeed is a complete cloud-based, omnichannel solution and advanced inventory management tool that lets you manage your business from anywhere and sell across channels.
- **X-Series Retail POS:** Meet the only retail platform you'll ever need. Give your merchants the retail advantage with Lightspeed Retail: the most advanced one-stop commerce platform for retailers looking to sell everywhere, drive growth, and easily accept payments. From managing complex multi-store inventories to developing varied online sales strategy, Lightspeed Retail unifies all the smart functionalities that can be accessed anytime, anywhere in the cloud. Whether you're just getting started or building your empire, Lightspeed's easy-to-use POS platform's got you covered.
- **L-Series Restaurant POS:** our L-Series product lets you run your entire restaurant with one system and access your business anywhere, anytime—even if you lose internet connection.
