

SMS|HOST® AND NONIUS PMS INTERFACE

Interface Functionality

SMS|Host's In-Room Entertainment and Video Services interface with Nonius Solutions utilizes the FIAS protocol to provide seamless integration.

The Nonius PMS interface offers a differentiated experience even before the guest's arrival and allows you to inform, impress, increase revenue and guest satisfaction. Providing a solution that is fully integrated with SMS|Host, and other systems that are already in place in your hotel, it is imperative to supply your services that can help streamline your operation and get rid of manual tasks.

Interface Benefits

The interface allows both systems to have improved accuracy of information and overall efficiency through:

- Real-time delivery of guest-room status information through SMS|Host check-in, check-out, and room moves.
- Increasing revenue and guest satisfaction with the posting of detailed charges.
- TV and Video Restrictions
- Direct delivery of detailed folio information to the guest room.
- Providing express check-out capability, thereby allowing the hotel guest to avoid lines at the front desk through the convenience of checking out from the TV.
