

SMS|HOST[®] AND BREEZEWAY INTERFACE

Interface Functionality & Benefits

SMS|Host's Hotel Operations interface with Breezeway utilizes our web servicing technology, SMS|Diplomat to provide seamless integration.

The interface allows both systems to have improved accuracy of information and overall efficiency through:

- Real-time delivery of guest and room status information through SMS|Host check-in, check-out, and room moves.
- Real-time delivery of future reservations
- Housekeeping status updates to ensure systems are in sync.

BREEZEWAY

Automate Operations and Elevate the Experience with Breezeway's Hotel Operations interface. With Breezeway, you get the tools the short-term rental pros use to coordinate, communicate, and verify the detailed work and service that goes into perfectly prepared properties.

With Breezeway your hotel operations team will be able to:

- Manage your cleaning, tasks & maintenance all in one place.
- Automate the heavy workload of scheduling property tasks.
- Gain confidence in property readiness like never before.
- Deliver more personalized guest experiences.

Software and Hardware Requirements

The product is compatible with, and requires, the following:

- Current release of the SMS Product Suite
- Diplomat Type II Server (see Exhibit A - Hardware Requirements document)

Please contact a Breezeway representative to learn more about their software and hardware requirements.

Communicated Information

Your SMS|Host system and Breezeway interface supports but is not limited to:

INTERFACE FUNCTIONALITY

- Guest updates for future arriving guests
- Guest Status – check-in, check-out, and room moves
- Housekeeping status updates
- Ability to pull hotel specific configuration from the PMS
