

SMS|HOST® AND ALICE INTERFACE

Interface Functionality

Springer-Miller Systems' Hotel Operations interface with ALICE by Actabl utilizes our web servicing technology, SMS|Diplomat to provide seamless integration.

ALICE on-property software for housekeeping and service delivery is essential for modern hotels. As a five-star housekeeping, service delivery, and operation solution it optimizes on-property communication, efficiency, and guest satisfaction.

Interface Benefits

SMS|Host's integration to ALICE eliminates discrepancies in data between systems that can lead to inaccurate information, poor customer response times and missed opportunities. This interface allows both systems to have improved accuracy of information and overall efficiency through:

- Real-time delivery of SMS|Host reservations (created, modified, or cancelled).
- Real-time delivery of guests' check-in, check-out, and room move events from SMS|Host.
- Increased operational efficiency with up-to-date guest and booking information.

Communicated Information

Your SMS|Host system and the ALICE hotel operations interface supports but is not limited to:

INTERFACE FUNCTIONALITY

Guest updates for future arriving guests

Guest Status – check-in, check-out, and room moves

Products & Services

^{SMS}|Host's interface with ALICE can assist in supporting the following products & services:

- **Housekeeping:** Increase staff productivity and decrease operating costs with features to improve room insights and communication.
- **Service Delivery:** Help your staff work together to ensure guests' and team requests are met consistently and on time.
- **Guest Services:** Equip your front desk to exceed guests' expectations with personalized services at scale.
- **Guest Messaging:** Communicate with guests the way they prefer with real-time messaging.

Software and Hardware Requirements

The product is compatible with, and requires, the following:

- Current release of the SMS Product Suite
- Diplomat Type II Server (see Exhibit A - Hardware Requirements document)

Please contact an ALICE by Actabl representative to learn more about their software and hardware requirements.
