SMS|HOST® AND NCR COUNTERPOINT INTERFACE

Interface Functionality & Benefits

Springer-Miller Systems' Level 1 Point-of-Sale interface utilizes our web servicing technology, SMS|Diplomat to provide seamless integration with the NCR Counterpoint Point of Sale application.

The interface allows both systems to have improved accuracy of information and overall efficiency through:

- Pre-posting inquiries that provide the NCR Counterpoint user with detailed SMS|Host guest and reservation data
- Posting of detailed charges from NCR Counterpoint to the SMS|Host system

NCR Counterpoint POS

NCR Counterpoint Point-of-Sale is powered by Retail Control Systems (RCS). RCS offers a complete retail management system that gives you the power to control every aspect of your operations online, offline, at the counter, on the go, or in the back office to help our business run more efficiently and profitably.

Communicated Information

Your SMS|Host system and NCR Counterpoint POS interface supports but is not limited to:

INTERFACE FUNCTIONALITY
Pre-posting inquiry
Posting of detailed room charges

Products & Services
