

SMS|HOST® Secure Data Extract with ClubUp

Springer-Miller Systems' Secure Data Extract (SDE) export provides a framework to support automated, schedulable, one-way data exports from SMS|Host to complimentary hospitality systems.

Trusted by world-class golf clubs – ClubUp enhances caddie programs and outside operations.

Functionality

Acting as a protective gateway to your system, the SDE facilitates rapid, reliable and more frequent access to the data that hospitality product vendors need in order to provide services to you and your guests.

Beginning with SMS|Host version 22.1 and the release of our Personal Data Privacy Controls Package, officially sanctioned exports will be required for all vendors that utilize data from SMS|Host.

Employing a custom Product Profile, the SDE targets the databases they require and tracks all changes compressing, encrypting and transporting them automatically via a secure channel on a scheduled basis.

Secure Data Extract Benefits

By employing Springer-Miller's SDE, properties gain the following benefits:

- **Security:** increased through elimination of direct/uncontrolled external access to SMS|Host
- **Protection:** sensitive data are removed prior to export; encryption in transmission complies with data privacy requirements
- **Reliability:** consistent and dependable delivery of data
- **Automation:** fully autonomous processing
- **Speed:** much smaller data feeds result in much shorter transmission periods
- **Frequency:** smaller extracts enable greater frequency of exports
- **Economy:** the SDE supports multiple vendor exports from a single installation
- **Performance Safeguard:** reliance on an official export protects against unintended performance degradation

Software and Hardware Requirements

The product is compatible with, and requires, the following:

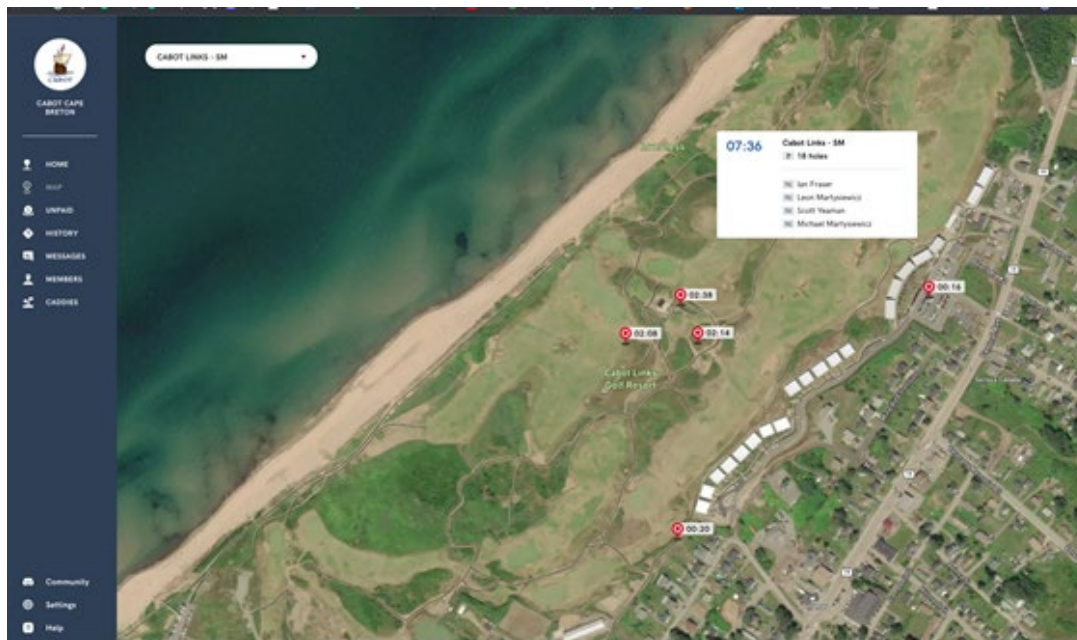

- Current release of the SMS Product Suite
- Multi-interface Processor (see Exhibit A, Rev. 5.0, Section 3, page 8 for details)

ClubUp Features

An SDE Export with ClubUp offers the following:

- **Customized Experience:** ClubUp provides a customized, responsive, fully integrated experience that works within your budget while ensuring your caddie program is compliant and organized,
- **Risk Mitigation:** Having independent contractors working on property can come with risk. ClubUp's contractor-friendly communications, scheduling, and payment options — enable your golfers to simply enjoy a great golf experience while providing you with peace of mind.
- **Data and Reporting:** ClubUp's reporting features deliver key data from each round played, logged directly into your system. This promotes an improved on-course experience for members and helpful insight into each caddied round, including pace of play.

Web Portal

Today, Jul 27

Matthew borrowed group beyond camera, Clifford, Doug Irwin, and Brad Andrews in the morning and Collin in the afternoon

Jeff Lucas - Cliffs - 9:00 / 9:12 - 4 A bag carriers, 1 Cart Caddie (Lorne)
 Jeff Lucas - Links - 3:00 / 3:12 - 4 A bag carriers, 1 Cart Caddie (Lorne)

Cliffs - 9:48 - Jesse to shadow Phil
 11-12 Cliffs - DO NOT WANT CADDES (that isn't changing the request)

Club Links - SM • Clear empty tee times
