SMS|HOST® AND BEHOME247 INTERFACE

Interface Functionality

Springer-Miller Systems' Access Control interface with BeHome247 utilizes our web services technology, SMS|Diplomat to provide seamless integration.

Interface Benefits

The interface allows improved accuracy of information and overall efficiency through:

- BeHome247's synchronization of guest data
- Accurate unit type and unit data through integration

Communicated Information

Your SMS|Host system and the BeHome247 Access Control interface supports but is not limited to:

INTERFACE FUNCTIONALITY
Synchronization of guest data
Unit type and unit data request

Software and Hardware Requirements

The product is compatible with, and requires, the following:

- Current release of the SMS Product Suite
- Diplomat Type I or II server (see Exhibit A - Hardware Requirements document)

Please contact a BeHome247 representative to learn more about their software and hardware requirements.
