SMS|HOST® AND KONAMI INTERFACE

Interface Functionality

Springer-Miller Systems' Casino Management interface with Konami utilizes SYNKROS Service Bus v2 technology via SMS|Diplomat to provide seamless integration between the casino, patron, and hotel staff.

Interface Benefits

With the Konami integration the hotel staff will be able to:

- Lookup the Casino Player by Card Number or Player ID

- Inquire and review the balance of the Player Card in a central location

- Redeem Player Points, Comp Points, and Comp Vouchers

- Reverse Player Points, Comp Points, and Comp Vouchers

- Access to simulation mode for new hire training

Communicated Information

Your SMS|Host system and the Casino Management interface with Konami supports but is not limited to:

INTERFACE FUNCTIONALITY
Patron (Player and Comp) Point inquiry
Patron (Player and Comp) Point Redemption
Patron (Player and Comp) Point Reversal
Comp Voucher Inquiry/List Display
Comp Voucher Redemption
Comp Voucher Reversal

Software and Hardware Requirements

The product is compatible with, and requires, the following:

- Current release of the SMS Product Suite
- Diplomat Type II server (see Exhibit A - Hardware Requirements document)

Please contact a Konami representative to learn more about their software and hardware requirements.
